The Corsets are on sale in a special corset section arranged for the occasion on the Fourth Floor—Centre.

A style of corset particularly designed for each type of stout figure is included in the sale. All corsets made of durable white coutil, extremely well boned. They are patented models, each one with a particular moulding efficiency for some part of the figure, and they are comfortable, too. Six are illustrated—a glance at the models will assure every stout woman that this is a chance to be well-corseted, and at the same time save money. All sizes included in the lot, but not all sizes in every style.

To expedite service no fittings or alterations will be made during this sale.

A—A model for the tall stout figure. Low bust, long skirt with lacing on hip, which is adjustable and allows freedom in sitting. Graduated front clasp, well boned over abdomen. Elastic section over diaphragm. Slightly raised shoulder.

B—Medium bust corset for the tall, long waisted figure. Reinforced over abdomen with double material. Elastic section in front part of skirt to allow comfort and freedom. Band of elastic in back to allow corset to conform to the figure.

C—A model for the short heavy figure. Is made in two lengths of skirt, one for the low bust woman, and the longer one for the medium bust. The entire back, from the underarm over, is made of elastic to care for the fleshy shoulders. It is extremely well boned and has a graduated front clasp. Elastic sections at side of skirt.

D—An abdominal reducer for stout women; has an inner belt of mesh, attached at either side and hooked in front. Low bust, long skirt, all well boned.

E—A front lace model for tall stout figures, heavily boned throughout. Extremely long skirt with elastic band at bottom of skirt in back to make it conform to the figure. Laces directly down front over a tongue of self material, which insures a smooth contour.

F—A model for the tall woman, also front lace, which has a wide tricot tongue under lacing, which gives a desirable smooth long line. Low bust, well boned throughout.
